Monthly overview

Illustrative example · Fictional data

Revenue	**$42,500**
Expenses	
Cost of goods sold	$14,200
Payroll	$9,350
Rent and utilities	$3,600
Shipping and supplies	$2,180
Software and subscriptions	$640
Other expenses	$1,110
Total expenses	**$31,080**
Net profit	**$11,420**

In this example, the business earned $11,420 after expenses for the month, or about 27 cents per dollar of revenue.

Net profit is not the same as cash in the bank. What your report includes depends on the scope agreed with KEW Group.
